

SKYDOME  
DESIGNS

**Expanding Horizons**

## **SKYDOME DESIGNS** *an introduction*

We pride ourselves on our ability to draw on expertise from around the globe and across a wide range of sectors and skills - whether through sharing knowledge and best practices across countries and continents, or by assembling global teams to work collaboratively on projects. Our creative and qualitative consistency stems from our attention to the smallest of details to the largest of projects. Our designs evolve from in-depth analysis of client-needs and working styles, resulting in very quick execution of projects, lower gestation periods and unique aesthetic expressions.

*As one of the leading names in architectural practices,  
we at Skydome Designs have always looked to expanding horizons  
- our ultimate goal is to deliver quality healthcare solutions to our clients.*

At Skydome we feel that a patient's well-being truly is affected by the environment and surroundings as well as the treatment, that is why we strive to make patients feel at home rather than an institution all while keeping infrastructure cost minimal while delivering the best possible patient care. We are also well versed in designing and building medical facilities which are NABH accredited as well as JCI accredited.

Agada Hospitals  
Diabetes Care
