

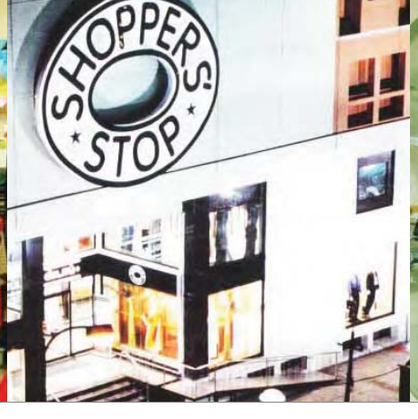
Designs for tomorrow, today …

SKYDOME
DESIGNS



We believe in creating a truly global practice firmly rooted in the communities we serve while drawing on international expertise and design talent.

Our motto is to provide a world-wide reach for our diverse clients. Our expertise stems from the belief that in an increasingly globalised market place, architecture should benefit from a contextualised response that acknowledges the cultural and environmental specificity of its region.

Susee Papinazath
Director, Skydome Designs

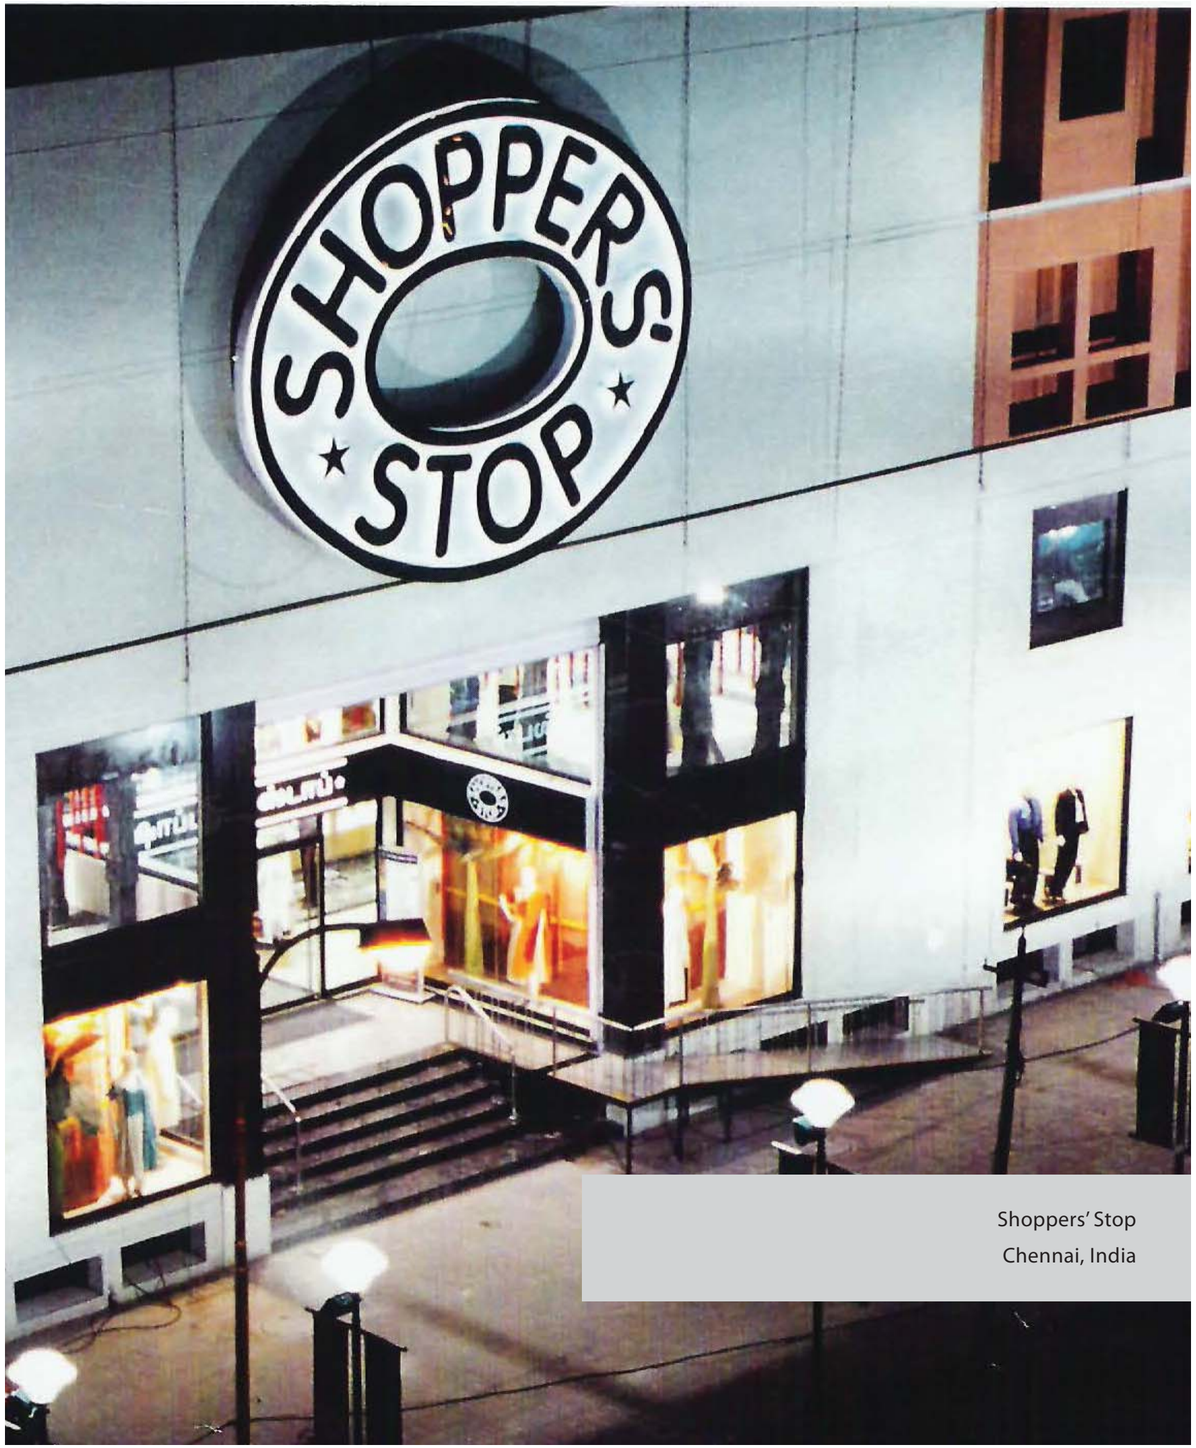
In creating a truly global practice, we have created a diverse work environment. Having done projects in US, Canada and India, we have always focussed on innovation through a collaborative and progressive approach. We are always driven and inspired by our passion to ensure qualitative & optimal solutions.

The Culture Shop

Thinking ahead…

Designs for tomorrow, today …

Three decades, of projects across different cultures and continents…
from modest beginnings, Skydome Designs has grown to become one
of the leading architectural practices in India, and North America today.

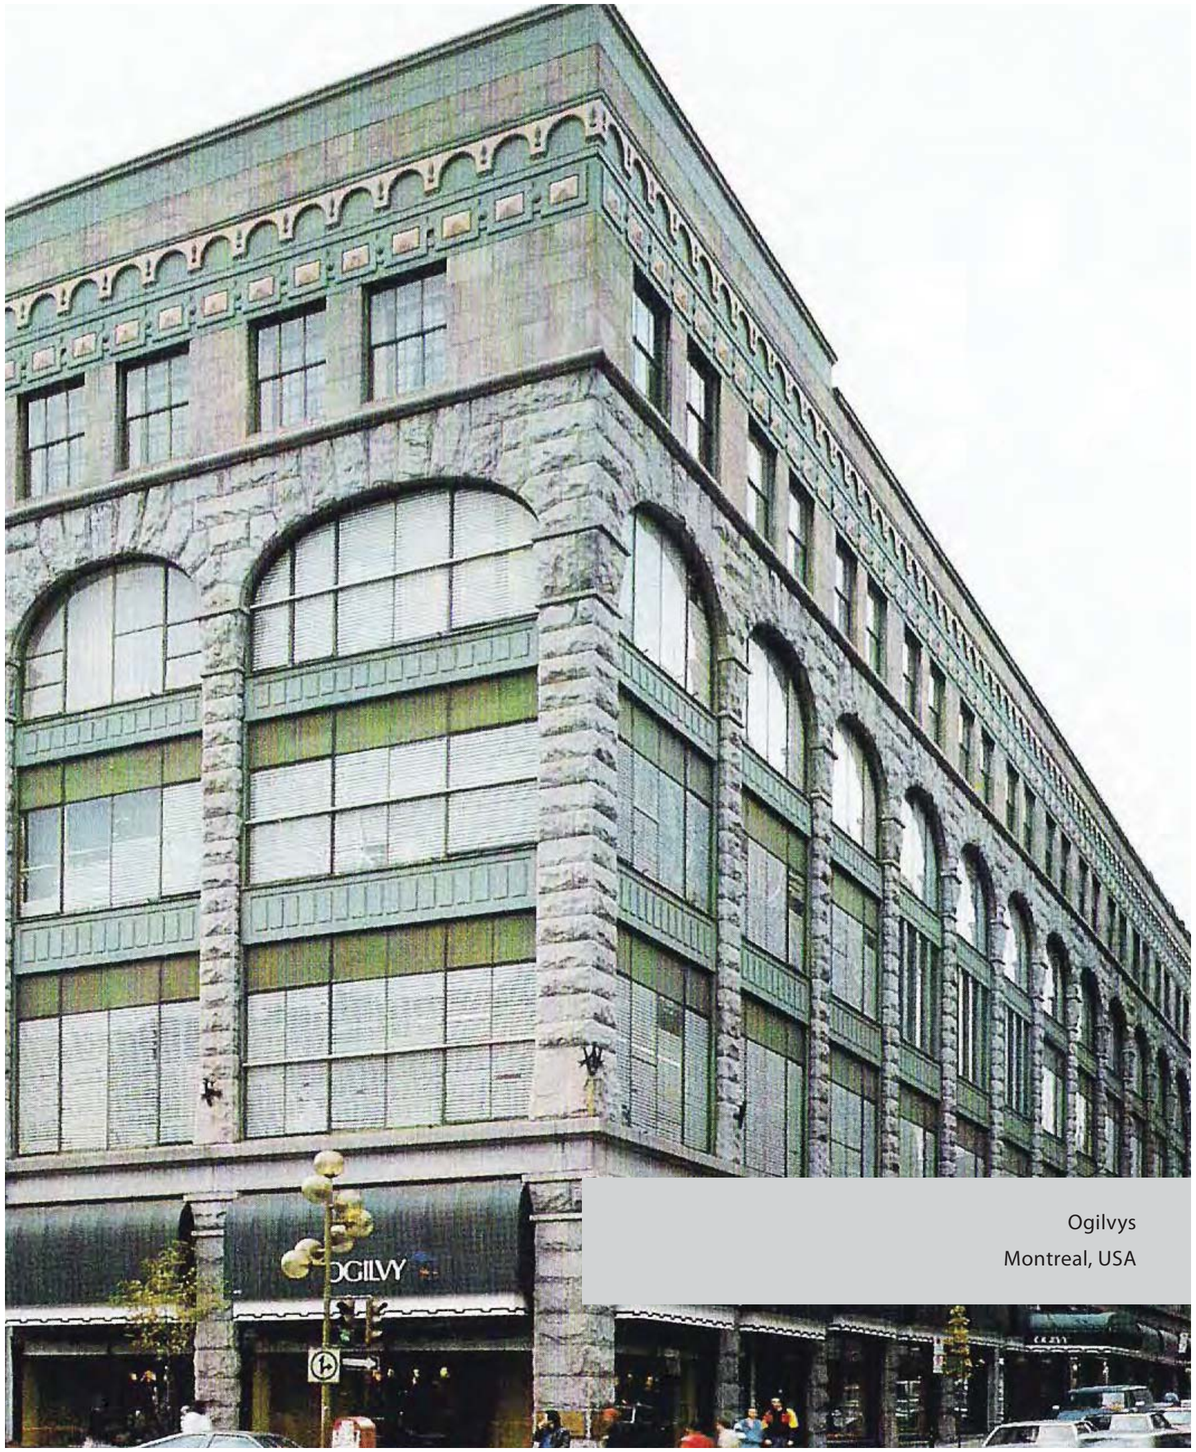


Shoppers' Stop
Chennai, India

creative. qualitative.
consistent.

We pride ourselves on our ability to draw on expertise from around the globe and across a wide range of sectors and skills – whether through sharing knowledge and best practices across countries and continents, or by assembling global teams to work collaboratively on projects. Our creative and qualitative consistency stems from our attention to the smallest of details to the largest of projects.

Our designs evolve from in-depth analysis of client-needs and working styles, resulting in very quick execution of projects, lower gestation periods and unique aesthetic expressions .



Ogilvys
Montreal, USA
